SUMMARY

Full Stack Software Engineer leveraging 9 years of **Intelligence and Linguistics** experience to solve problems with a unique point of view. Roles such as Operations Training Manager, and Senior Language Analyst have fostered an **inquisitive, flexible and levelheaded mind** with a myriad of qualifications including an active **TS/SCI clearance with CI Polygraph**.

PROJECTS AND COMPETITIONS

○ Trippy: Road Trip Planning App

- Leveraged Google Maps Platform API to create a React app that either allows users to customize their own road trip based in preferences or automatically generates a road trip based on preferences swipe wizard.
- Built a proxy server to make API calls prior to JavaScript Map API mounting to improve user experience by reducing load times to generate a route.

○ Personal Portfolio (wilsongauf.com)

- Incorporated React and stylized components to create responsive portfolio site.
- Designed site components to be reuseable so that it can easily be refactored to be used for many purposes. Deployed onto **AWS** for speed and ease of use.

○ Black Jack (mintbean.io Jr. Web Dev Hackathon)

- Designed and created a multi-page React based site for Black Jack with **JWT Token Authentication**.
- Employed Material UI for ease of use and incorporated custom styling for a modern design.

○ NHL Fantasy Tracker App

- Created a full stack app utilizing **React, Django and PostgreSQL** that allowed users to create an account, build out their team and track when their players are playing while viewing key stats by leveraging NHL's undocumented API.

EXPERIENCE

○ Persian-Farsi Language Analyst

US Navy: NSA - Georgia, Air Operations

November 2012 - July 2021

- Provided foreign language and subject matter expertise to analyze adversary communications and produce time sensitive intelligence products that enabled U.S. and allied intelligence agencies, and military operations.
- Managed training programs, which included publishing qualification guidelines, operating procedures, and training material. Additionally, provided training for over 100 service members increasing manning and readiness.
- Drafted and presented intelligence briefs to senior executives and contributed to reports that were presented to highest levels of DoD and NSA officials.
- Consistently led teams of 6-10 linguists on multiple shifts for many objectives while providing performance updates to senior leadership and serving as a spokesman for junior personnel.
